

Description

JSL-04W is a 7-inch color touch screen indoor station with 8 alarm inputs and an industrial power socket interface. Primarily utilized in residential communities, villas, office buildings, and other locations, it serves to answer calls from the entrance, engage in intercom conversations with the entrance unit, and remotely unlock the entrance unit. It offers reliable security and convenient visitor call services for a wide range of users, creating a safe and comfortable living environment.

Main Features

7-inch color capacitive touch screen provides a more convenient user experience

Built-in 2W speaker and AEC algorithm, it achieves high-quality two-way hands-free calling

Check real-time video of third-party IP cameras and door phone to ensure security

Rich interfaces facilitate the integration of various sensors, enabling comprehensive home security monitoring

Powered by POE or external source

Specifications

Screen	7" TFT LCD
System	Linux
Body	ABS + Tempered Glass
Resolution	1024*600
Input	Capacity Touch
Alarm Input	4-way Input Detection
Video Coding	H.264 / H.265
Audio	G.711
Power Supply	DC12V / 1A or POE power supply

Power Output	1-way 12V/200mA
RS485	Optional
Working Current	< 500mA
Working Temperature	-10°C ~ +45°C
Storage Temperature	-10°C ~ +45°C
Working Humidity	10%~90%
Size (LWH)	255x170x15.5mm
Installation	wall mounting

Dimension

Accessory

JSL-04W Bracket
