Description

The JSL-I7 is a high-performance 7-inch indoor video intercom terminal designed for modern residential and commercial buildings. It integrates video talk-back, remote unlocking, emergency call, and multiple alarm zone functions, providing users with convenient, safe, and intelligent home communication and security management. The unit supports wall-mounted installation and features a stylish ABS+PMMA housing with a slim profile for aesthetic integration into any interior.

Main Features

- Supports video talk-back with outdoor stations
- Remote door unlocking capability
- Supports 8 to 4 alarm zones
- Emergency call to management center at any time
- Cancel garrison and arming with password/code
- Set garrison and arming via room station using code
- Receive and delete information from guard center
- Optional image capture and storage
- Information search function
- 7-inch touch digital screen with color display
- Adjustable image brightness, volume, and color
- Wall-mounted design (mounting plate: 60×60 mm)
- Preset SD interface for future storage expansion
